

JUNE 5, 2025 - World environment day celebration

Department of Botany, SN College, Alathur

WORLD ENVIRONMENT DAY

Why it matters?

Plastic pollution poses an immense threat to our planet. Accumulating in oceans, rivers, and soil, it severely impacts ecosystems, wildlife, and human health. Microplastics have even been found in the water we drink and the food we eat. World Environment Day 2025 aims to confront this issue head-on, promoting sustainable solutions and encouraging collective action to combat plastic pollution

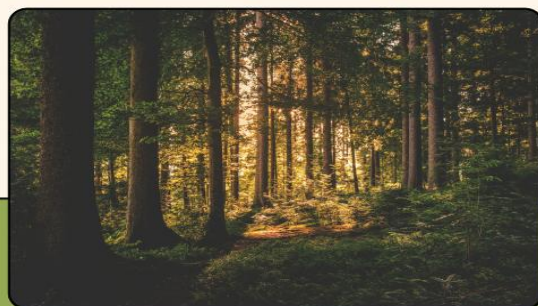

SREE NARAYANA COLLEGE ALATHUR

Affiliated to University of Calicut
NAAC Accredited with 'A' Grade

DEPARTMENT OF BOTANY & IQAC

June 5 10:00 am

Principal

How you can participate:

Avoid Single-Use Plastics:

Opt for reusable bags, water bottles, straws, and containers instead of disposable plastic items.

Reduce, Reuse, Recycle:

Focus on minimizing your consumption, finding new uses for items, and always recycling correctly.

Choose Plastic-Free Products :

Purchase items with minimal or no plastic packaging.

Proper waste disposal

Ensure you sort your waste and dispose of it correctly

Report

World Environment Day in 2025, celebrated annually on June 5th, focused on "**Beat Plastic Pollution**" according to the United Nations Environment Programme (UNEP). This year's campaign urge individuals, nations, and industries to reduce plastic consumption, adopt sustainable alternatives, and promote responsible production and consumption.

‘From awareness to action – every step matters’

Department of Botany, SN college, Alathur celebrated World Environment Day with a series of meaningful activities that highlighted the importance of protecting our planet. The day began with the inauguration ceremony by Principal followed by the planting of saplings. A heartfelt speech and a soulful song set the tone for the celebration, while a thought-provoking mime drama created awareness about environmental conservation.

UG students from various departments actively participated in various competitions such as Quiz competition, poster making, drawing, poem writing, collage work, and crafting items from best out of waste. The prize-winning materials are exhibited on the notice board near the Department of botany and the notable walls of faces of SN college. This will motivate students to aware the consequences of plastic usage. The entire staff dressed in shades of green, symbolizing their support and solidarity for a cleaner, greener Earth.

The celebration theme always highlighted the harmful effects of plastic waste on ecosystems, wildlife, and human health. It encourages everyone to refuse, reduce, reuse, recycle, and rethink their use of plastic and motivates participants for the urgent need to collective action to tackle plastic pollution and its far-reaching consequences.

The event concluded with a cleanliness drive under the Department of botany reinforcing their commitment to environmental and social responsibility

Let's continue to nurture nature – the Department of Botany way.
