The Department of Botany, Sree Narayana College, Alathur, organised an awareness programme on Medical Coding for the students of B.Sc. Botany, Zoology, and Environmental and Water Management (EWM) on 23 June 2023. The programme commenced with a warm welcome addressed by Dr. Binumol M, Associate professor, Department of botany and the presidential address was delivered by Dr. Shereena J, Associate professor, Department of botany. The programme was formally inaugurated by principal, Dr. Praveena vijayan and felicitations are offered by Dr. Dhiva, IQAC Coordinator.

The resource person Mr. Dipin C, marketing manager, Antons Medicode, delivered an informative talk with the objective of introducing students to the emerging career opportunities in the healthcare documentation and medical coding sector. They provided a comprehensive overview of medical coding, its significance in the healthcare industry, and the skills required to pursue a career in this field. The resource persons explained the process of converting medical diagnoses, procedures, and healthcare services into universally accepted alphanumeric codes used for insurance claims, billing, and medical record management.

The speakers highlighted the growing demand for certified medical coders in hospitals, healthcare institutions, and multinational companies. They also discussed various certification programmes, career prospects, salary packages, and employment opportunities available in India and abroad. The interactive session enabled students to clarify their doubts regarding eligibility, training, and future prospects in medical coding.

The programme was highly informative and beneficial for the participants, helping them gain awareness about an alternative career path in the healthcare sector. Students actively participated in the discussion and expressed keen interest in exploring opportunities in medical coding.

The programme concluded with a vote of thanks, expressing gratitude to the resource persons from Antons Medicode for their valuable insights and guidance. The Department of Botany appreciated the enthusiastic participation of the students and reaffirmed its commitment to organising career-oriented programmes for their professional development.
