Dr. Soumya M

Programme Schedule

Theme: *Preserving Nature for Future*

Date: 28 July 2026

Time: 10:30 a.m.

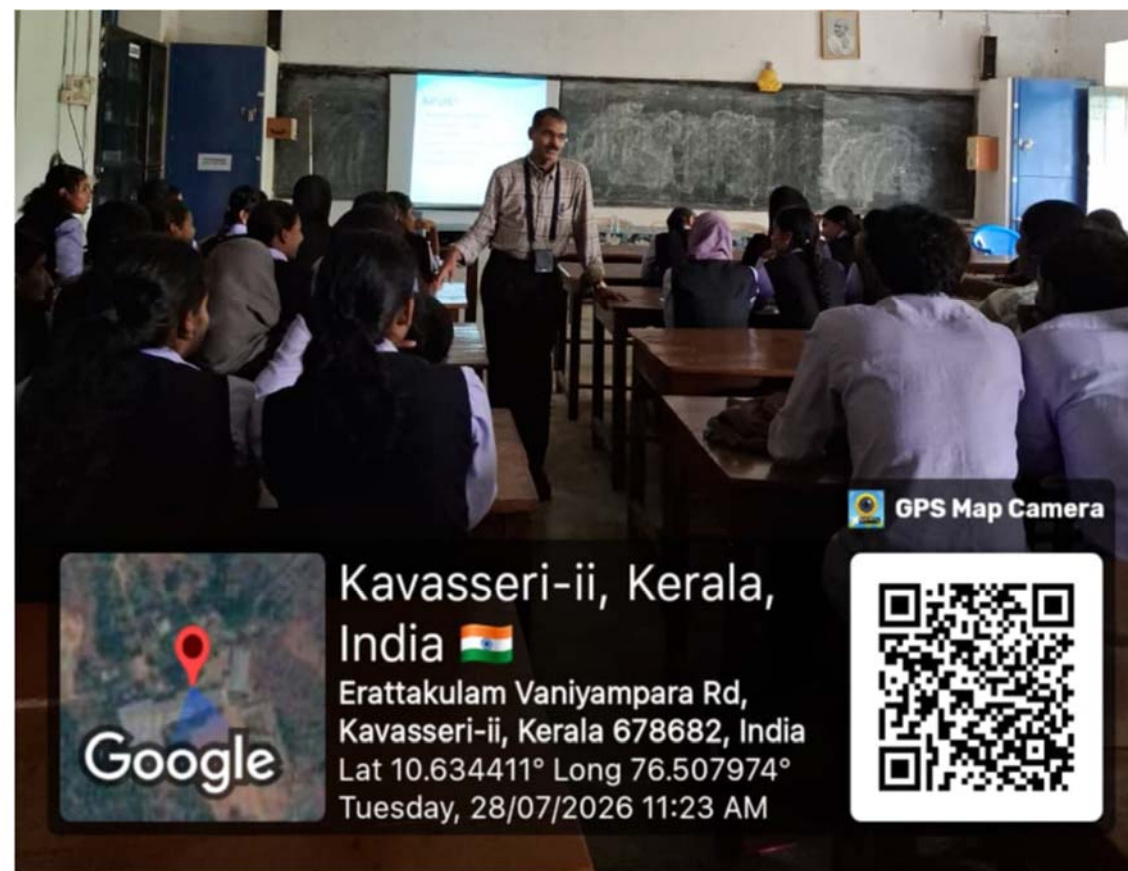

Venue: Botany Laboratory, Sree Narayana College, Alathur

Report on World Nature Conservation Day Celebration

World Nature Conservation Day was observed by the Department of Botany, Sree Narayana College, Alathur, in association with IQAC, on 28 July 2026 at 10:30 a.m. in the Botany Laboratory. The programme was organized with the theme "Preserving Nature for Future" to create awareness about environmental conservation and sustainable living among students and faculty members. The programme commenced with a welcome address by Prof. (Dr.) Binumol M., who warmly welcomed the gathering and emphasized the need to protect nature through collective responsibility. This was followed by the presidential address by Dr. R. Bindu, Head of the Department of Botany, who highlighted the importance of conserving biodiversity and encouraged students to adopt eco-friendly practices in their daily lives.

The programme was inaugurated by Dr. Praveena Vijayan, Principal, Sree Narayana College, Alathur. In her inaugural address, she stressed that environmental conservation is not merely the responsibility of governments or organizations but a duty shared by every individual. She appreciated the efforts of the Department of Botany in organizing awareness programmes that inspire students to become responsible custodians of nature. The highlight of the programme was an informative and engaging expert talk by Dr. Pramod Kumar N., Associate Professor, Department of Botany, N.S.S. College, Ottapalam. He delivered an insightful lecture on several important themes related to nature conservation. He explained the concept of biodiversity and its significance in maintaining ecological balance. He discussed various species interactions. Dr. Pramod Kumar also emphasized the importance of pollinators, such as bees, butterflies and wasps in ensuring plant reproduction, food security, and ecosystem stability. He spoke about endemism, explaining the importance of protecting species that are restricted to specific geographical regions, especially those found in the Western Ghats. He also highlighted the significance of solar power as a clean and renewable source of energy, explaining how the adoption of renewable energy can reduce environmental pollution and contribute to sustainable development.

The programme concluded with a vote of thanks delivered by Dr. Soumya M., who expressed heartfelt gratitude to the Principal, the resource person, the Head of the Department, IQAC, faculty members, students, and all those who contributed to the successful organization of the programme. The event ended with renewed enthusiasm among participants to conserve biodiversity and protect nature for future generations.
